

ADHD - Attention Deficit Hyperactivity Disorder

ADHD Videos By Dr. Russell A. Barkley

Russell A. Barkley, PhD, is Director of Psychology and Professor of Psychiatry and Neurology at the University of Massachusetts Medical Centre. His publications on ADHD include the books

Attention-Deficit/Hyperactivity Disorder and Taking Charge of ADHD, as well as an award-winning video series. He is also editor of the ADHD Report, the leading newsletter in the field.

A New Look at ADHD Inhibition, Time, and Self-Control

This video provides an accessible introduction to Russell A. Barkley's influential theory of the nature and causes of ADHD. The program brings to life the conceptual framework delineated in Dr. Barkley's book ADHD and the Nature of Self-Control. Dr. Barkley shares his breakthrough thinking about the roots of many of the most troubling--and perplexing--ADHD symptoms in children and adults. Also shown are concrete ways that our new understanding of the disorder might facilitate more effective clinical interventions. This lucid, state-of-the-art program is ideal viewing for clinicians, students and in-service trainees, parents of children with ADHD, and adults with the disorder. Includes a manual.

"Definitely a video to own as a springboard for adult, teacher and parent education as well as the training of interns and students."

VHS Price: PPR-\$179 HL-\$79
Code # 684-684-105VHS

More Videos By Dr. Russell A. Barkley

Understanding the Defiant Child

Tantrums, resistance to chores, negativity, occasional clashes between parents and children are not uncommon. But when a child's defiance is chronic and disruptive of family life, he or she may have Oppositional Defiant Disorder (ODD). In this clear and accessible resource for parents, teachers and students of child behaviour, Dr. Barkley illuminates the nature of ODD, its causes, why it should be dealt with early, and what can be done.

"Adults will benefit from the in-depth discussions and training dealing with noncompliant and defiant behaviour."

Managing the Defiant Child: A Guide to Parent Training

Childhood defiance--the most common complaint of parents seeking professional help for their children--exerts a tremendous amount of wear-and-tear on families. This information-packed video brings to life a proven approach to behavior management, and shows clinicians, school practitioners, parents, students, and teachers how enhanced parenting skills can dramatically improve the parent-child relationship. Includes a manual.

"Can provide relief to parents or caregivers who are struggling with continually defiant children."

★ ADHD - Attention Deficit Hyperactivity Disorder

Videos By Dr. Thomas W. Phelan

Dr. Thomas Phelan is a nationally renowned expert and lecturer on child discipline and Attention Deficit Disorder. A registered Ph.D. clinical psychologist, Dr. Phelan has worked with children, adults and families for over 25 years. In addition to his active seminar schedule, Dr. Phelan frequently appears on radio and television.

Adults With A.D.D.

In this enlightening video, Dr. Phelan is joined by a panel of four ADD adults and two of their spouses to explore their real-life experiences and such important issues as: How is ADD diagnosed? What are the effects of ADD on work, home, marriage, parenting and social life? What impact does ADD have on mood and self-esteem? How does an adult with ADD find help? The real-life experiences shared by Dr. Phelan's panel shed light on this often confusing disorder and point the way toward successfully dealing with ADD.

AD/HD: What It Is, What It Isn't, What To Do

AD/HD is often the first diagnosis for any attention problem--- but when are other factors at work? How often is a misdiagnosis made, because it is so easy to pin a simple label on inattentiveness? This workshop program focuses not only on identifying the true causes of inattention, but on effective management.
